

At Nature's Kids Nursery School...

Our philosophy is to provide a stimulating and meaningful first school experience for your child. We foster a partnership between dedicated, nurturing teachers and involved caring parents.

We create a place for children where they can play, explore, learn, and grow both mentally and physically.

We value each child as unique, with individual talents, strengths, interests, and needs.

We foster wonder and amazement as children discover the world around them and learn to care about living things.

We create a learning environment where children are free to learn and grow, secure in the knowledge that they are very special.

"Too often we give children answers to remember rather than problems to solve"

—Roger Lewin

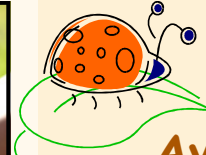

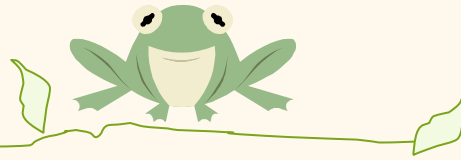

Young Children Need to Play...

It has been said that play is children's work. Children work hard at their play because they can make it up themselves and learn a great deal while having fun.

Play is essential to early learning and is the main way children learn and develop ideas about the world.

Children learn the most from play when they have skilled teachers who are well trained in understanding how play contributes to learning.

Play is an integral part of our preschool program and our certified teachers know just how to turn play into a valuable learning experience.

Available Sessions:

M/W/F	9-12
T/TH	9-12
M/W	1-4
T/TH	1-4

2 day sessions \$195/month
3 day session \$265/month
